# Acknowledgement

The School internship report is the result of the long, two months journey. It wouldn't be possible without the participation and assistance of numerous brave and courageous people along the way. Thus I have to thank them all .

I am indebted to my college Guru Nanak College of Education Bidar., and my professors particularly Dr. Raishekhar Almaje sir (Principal) and Mareppa Kattimani sir (Co-ordinator and our group mentor).

And last but not the least, the credit of successfully completing our internship goes to our team of 9 student teachers who co-operated each other in all possible ways.

## Introduction

The internship program is an educational experience combining daily experiences in the classroom setting, time allocated to work on assignments and exam preparation, and time spent coaching extracurricular activities. Student-teacher interns follow the calendar of a school and work in partnership with members of the teaching staff. A carefully planned internship program should fulfil the following aspects.

- \* Develop professional skills and attitudes
- \* Offers fruitful exposure on the job
- \* Understanding the nature of working climate and status
- \* Securing purposeful relationships with the existing human resources.

Our internship group performed the activities assigned to us under the guidance of Mareppa Kattimani and cooperation of school coordinators. This report contains all the activities in brief .We conducted all activities in subgroups done by our professor and school coordinator.

## Activity 1 :- Block Teaching

**Meaning:** - The block mode of teaching (BMT), also called intensive mode of teaching or block scheduling, is a style of teaching in which subjects are condensed into shorter time periods. Blocks can be as short as one week (or even a few days) as opposed to semesters.

Our internship started with block teaching where each of us had to teach a particular lesson in 3 consecutive periods. Since it was the second half of the academic year of the school, we all selected topics according to our methods and conducted this activity with help of school authorities.

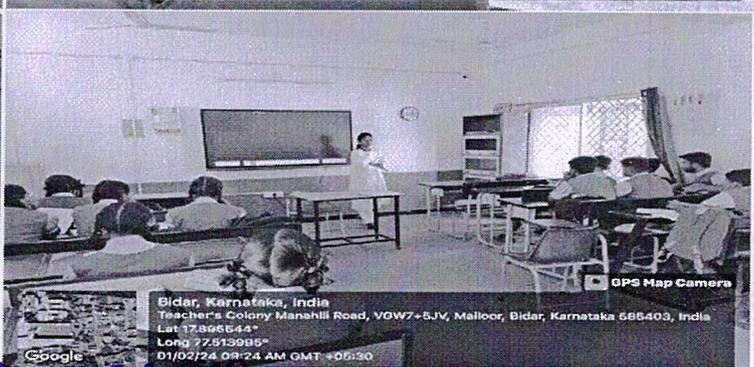

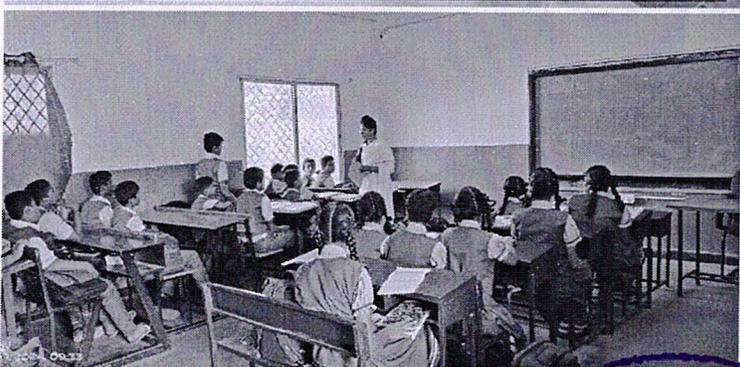

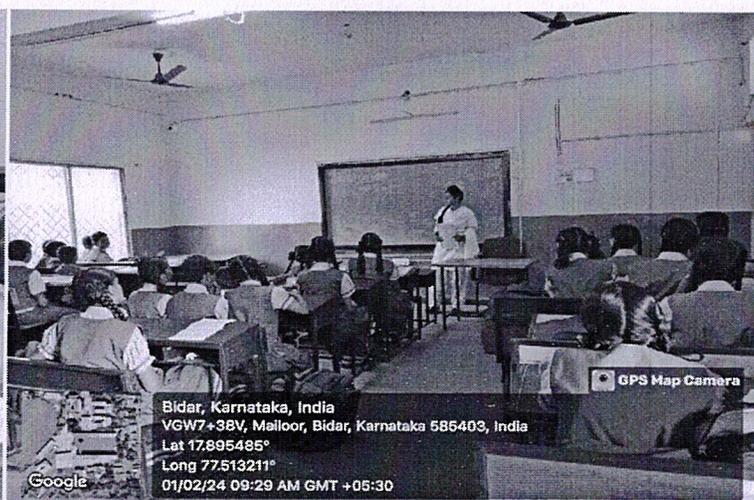

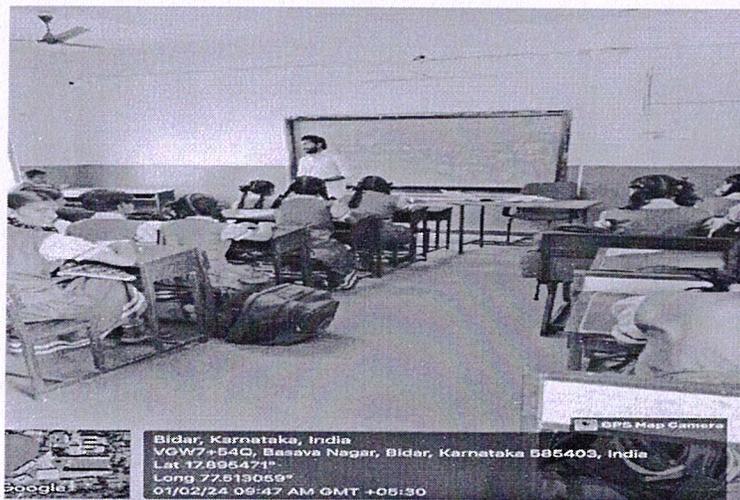

## Activity 2 :- Unit Plan

**Meaning:-** A detailed plan on how a particular topic will be conducted, including pupil activities and to meet the objectives.

The principles to be kept in mind are-

1. Why to teach - Objectives.
2. What to teach - Content.
3. How to teach - Method.
4. Did they learn and how much they learnt - Evaluation.

While conducting the block mode of teaching, we all took assistance from the school teachers to proceed in the right direction. With the help of school teachers' support and encouragement, we all made a unit plan of the lessons which we taught to students during the block teaching. With great help of school teachers, we prepared the test on the lessons we taught to students.

## Activity 3 :- School Records

The supervisor of Moorarji Desai Residential School Bagdal, specifically allocated the timing of 3 to 4.30 pm on 29th of September, 2023 to explain the different types of School Records, that the school maintains throughout the academic year. All 12 student teachers in our group, gathered at the stipulated time at Moorarji Desai Residential School on the given date.

The Supervisor of the school, Mr. Channabasava Hede welcomed us and led us to sit comfortably in the Conference Hall. She then requested the school peon to bring in the various record books maintained by the school. Each and every record book was explained to us in detail. We, the student teachers were permitted to individually look into each record book and were also allowed to click pictures for our reference. The record books included-

* Admission/Withdrawal Register	* Library Record
* Pupil's Attendance Register	* Science Lab Record
* Teacher's Attendance Register	* Sports Register
* Cash Book	* Transfer and Leaving Certificate
** School Stock Book	* Visitor's Book
Health Record Book	* Log Book

We received firsthand information regarding these school records that needs to be maintained by every school. We asked questions and clarified our doubts pertaining the record books.

We are extremely grateful to the Supervisor of the Moorarji Desai Residential School who was more than happy and obliging to clear our doubts and answer our queries.

We are sure that the insight and understanding that we gathered on this day will certainly go a long way in our journey as future teachers.

# Activity 5 :- Peer Observation

Peer observation is when a teacher observes another teacher in order to develop their classroom practice. A peer can be any colleague willing to support you. They may be from a different department or year team, have recently joined teaching, or be a member of the senior leadership team. Effective peer observation (including feedback and reflection) focuses on teachers' individual needs.

Peer observation is about teachers observing each other's practice and learning from one another. It aims to support the sharing of best practice and build awareness about the impact of your own teaching. We performed peer observation activity during our internship program. We have divided the observation into 3 sections i.e., 1) Introduction 2) Presentation 3) Evaluation.

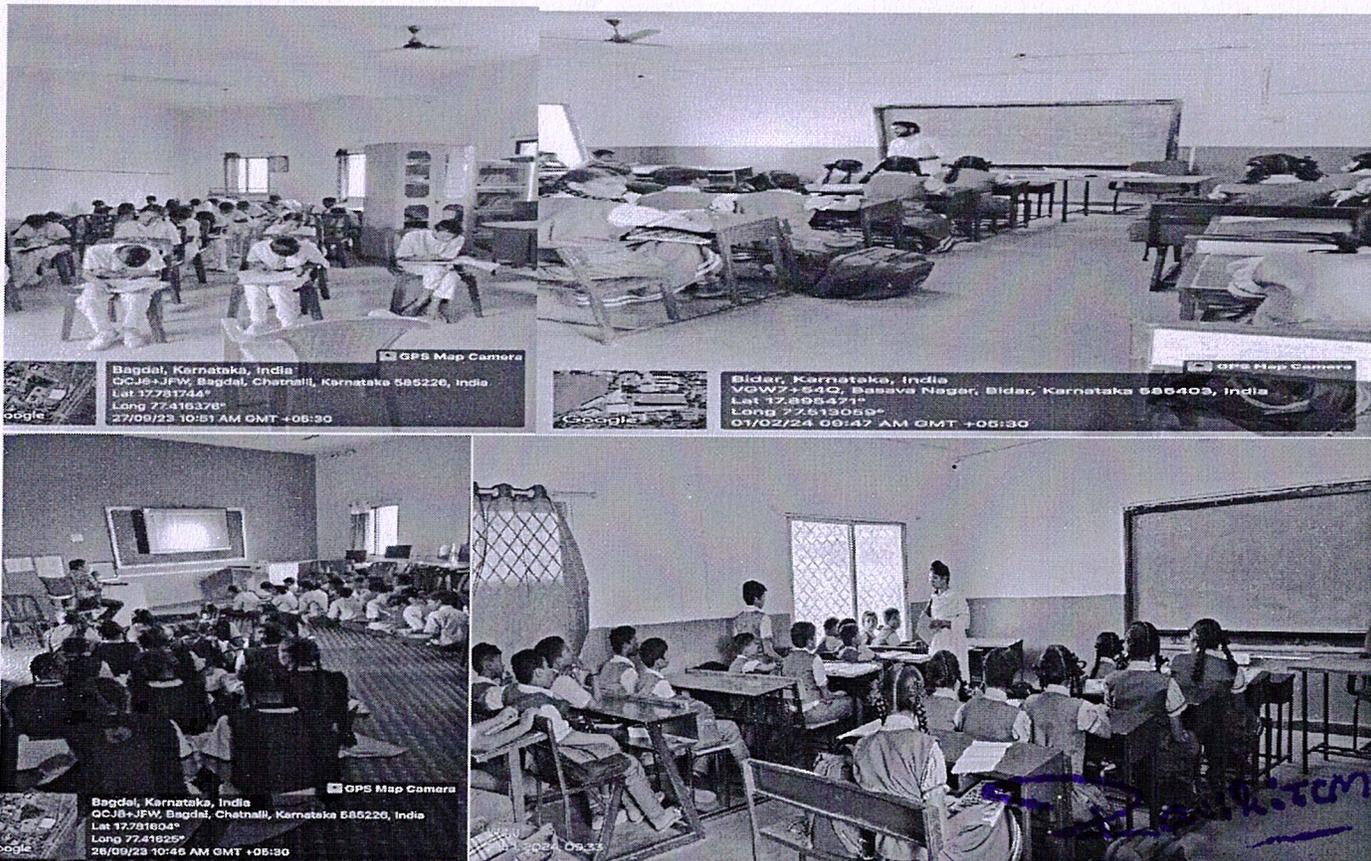

**Introduction** - We observed how teachers are checking about previous knowledge, introduction given and also observed statement of aim given by student-teacher.

**Presentation** - Under this section we observed use of teaching aids, classroom interaction, Mastery over the content, Black Board work, and also student's response.

**Evaluation** - In this section we observed type of questions ask for evaluation, what kind of homework is assigned, Time management, class control, lesson note and feedback given.

**Overall, each student- teacher observed six practice lesson. That is three lessons for two methods!..**
